2017 Garden Guide
"back to the roots"

ALFRED

A certified horticulturist & greenhouse manager with over 32 + years of experience, a master on roses and a radio personality.

TRUDY

Bachelor of Applied Horticulture, Certification in Floral Design and is a Canadian Accredited Floral Designer with over 20 + years experience.

CHRISTINE

Bachelor of Applied Horticulture, who enjoys all the new technology. The tree and shrub expert, Christine has been with us over 20 + years.

SERENA

Horticulture diploma with a major in landscape design. Serena has been with us for over 15 years providing quality landscape design for our customers.

OUR GUARANTEE

All of our plants are guaranteed to be true to name, top quality, healthy and free of insects or disease. If you should have any problems or concerns please contact us. Trees and shrubs are guaranteed for one year from date of purchase and for the original purchase value. Our guarantee applies to trees or shrubs that fail to grow after being properly planted and cared for in a recommended area. Guarantee excludes damage done by animals, chemicals, vandalism or nursery stock planted in above ground containers. The original receipt and nursery stock must be presented prior to or at time of adjustment. For more information on returns of plant material, please call us at 403.346.5613

We are also offering a 5 year warranty on trees and shrubs with purchase of MYKE. Ask our specialists for details. www.premiertech.com/myke

HOME DELIVERY

We realize that some of our customers may not have the ability to transport their statuary, planters, trees or furniture to their home. We can recommend a delivery service for your convenience. There is a fee for delivery and prior arrangements need to be made. Delivery service does not apply to bulk products. Please contact our information centre for all your delivery inquiries.

ONLINE GARDENING CLUB

EXCITING AND NEW

by Alfred Prins

In the wonderful world of ornamental horticulture there exists an insatiable thirst for plants with new and exciting colors, shapes, and growing habits. At Parkland, we deal with numerous suppliers that access many different plant developers so we have ready access to countless new varieties in flowering and foliage plants every year. This year we will see at least sixty new additions to our production list. While it is impossible to list them all here, we can tell you that they will add some exciting new options and planting combinations to your planters and gardens.

Petunias - There are a number of new varieties, almost all unique bi-colors. Most unique is "*Amore-Queen of Hearts*" - a yellow petunia with a red heart on each "petal". There are several new "*Crazytunias*" including *Citrus Twist*, *Lucky Lilac*, *Moonstruck*, *Razematazz* and *Swiss Dancer*. These are all bicolors with unique new color combinations. Finally we also have the reddest petunia ever "*Supertunia Really Red*" from Proven Winners.

We have beautiful new double deep pink Begonia called "*Funky Pink*", and also a new pink Bidens called "*Cupcake*". Blooms on white *Bacopa* are getting larger with "*Betty*", plus there is a new red Bidens called "*Bee Dance*" which should be an attractive new bee attracter.

In ornamental grasses we have the new "*Prince Tut*" from Proven Winners - intermediate in size between King Tut and Baby Tut. *Indian Mint* is a new green foliage "*Trailer*" that can be used as a trailing foliage enhancement for full sun in flowering or vegetable planters.

There are still many more and we can't wait to share them all with you! Many are in limited numbers, so visit us soon!

1. CRAZYTUNIA - MOONSTRUCK

2. BEGONIA - FUNKY PINK

3. BIDENS - CUPCAKES

4. PETUNIAS - AMORE-QUEEN OF HEARTS

5. BACOPA - BETTY WHITE

6. DAYLILY - HERE LIES BUTCH

7. INDIAN MINT

8. PRINCE TUT

9. SUPERTUNIA - REALLY RED

Marvelous Mushrooms

by Alfred Prins

Finally - An easy way to grow gourmet mushrooms year round in your own home! Everything comes in a self-contained package. Simply open the top of the bag, soak thoroughly, place in a warm location, harvest and enjoy!

This year we have four unique varieties to choose from *Blue Oyster*, *Elm Oyster*, *Shitake* and *Reishi*. We are very excited to have these Canadian products for our gardening friends!

Potatoes

or edible gardening

by Alfred Prins

We are noticing a trend towards growing more edibles and among the easiest to grow whether they be in a large garden plot, raised bed or a simple planter, are potatoes. They come in so many colors and types that they have gone from the boring to the exciting vegetables to grow in our “short” season.

Last year we carried over thirty varieties from the standard tried & true to red, blue, yellow and fingerling types. We have just as many this year and we have the unique varieties from Earth Apples again plus all our standard varieties – many of which are Alberta grown.

Drop-in and get yours! Some exotic types may sell out early so don't wait too long. We do carry potatoes right into early June for late planting and harvesting.

We also carry numerous varieties of onions, asparagus, three varieties of rhubarb, strawberries and more!

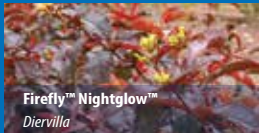

Purple Magic

Spring Bulbs

Hart's Dr. Mc Murray

by Alfred Prins

At Parkland Garden Center we take great pride in carrying the best possible selection of bulbs for flowers and vegetables that can be grown successfully in our sometimes challenging climate. Growing from bulbs is generally quicker than starting seeds, so we can grow some truly amazing and exotic flower from bulbs; from giant dinner-plate dahlias to the tall exotic gladiolas.

This year is Canada's 150th year and to help show our patriotic colors all summer

we will have the Canadian Celebration & True North selection of dahlias, gladiolus, lilies and more all in red and white. These will come into bloom after the Canadian Celebration tulips you planted last fall. Also, the following are exciting and new for this year:

DAHLIA - *'Shaka Zulu'* deep maroon with frosty white centers

DAHLIA - *'Brigitta Alda'* dark burgundy dinnerplate size

DAHLIA - *'Hart's Dr. Mc Murray'* - a new giant dinner-plate size dahlia in copper yellow

DAYLILY - (Hemerocallis) *'Barbara Barnes'* and *'Here Lies Butch'*-two new multi-colored varieties with very ruffled edges - very hardy

LILY - Double-Sensation - a new double red Asiatic Lily with white center and no pollen

All the usual favorites are here also, so drop in and get yours before they sell out!

Grass

the new perennial for the garden

Grasses have grown in popularity over the past couple of years. Grasses are easy to take care of and there are a lot of varieties hardy to our zone. The most popular is Karl Forester Grass which is tall and green. 150cm tall and 80 cm wide. Looks like wheat in late fall and winter. Blue Oat Grass is just as sought after with steely blue foliage and excellent contrast it is 90cm tall and 60cm wide. New for 2017 is three new grasses that are red in color. This has been difficult in the past to get a hardy red grass. Switch grass is an upright sturdy grass. Seed heads form in the fall and like Karl Forester keep through the winter.

PRAIRIE FIRE - This tall selection forms an upright clump of blue-green leaves that develop wine red tips in early summer; airy heads of tiny green flowers appear on plumes in late summer; perfect as an accent or massed in borders.

RUBY RIBBONS - Red, airy seed heads; blue-green foliage turns burgundy-red in mid-summer.

CHEYENNE SKY - A compact selection forms a small clump of blue-green leaves; airy heads of dark red flowers appear in late summer.

1. PRAIRIE FIRE

2. RUBY RIBBONS

3. CHEYENNE SKY

Foodie Fantastic

Grow Your Own

It's a growing trend, and with all the increasing transportation costs causing prices of fresh produce to skyrocket, there is even more reason to grow your own! Even if you have only limited space you can grow your own healthy treats. Many of our newer selections are more compact so they can be grown in planter pots by themselves or mixed with colorful flowers. Things seem to be heating up even more on the garden scene with the demand for hot peppers increasing – and there are more available now!

KALE - “Prizm”-2016 AAS Winner – this is a new dwarf kale good in containers in part shade – looks and tastes great right up to heavy frost.

CUCUMBER - “Bush Pickle”, and “Patio Snacker” are compact great in smaller spaces. “Lemon” is a round yellow novelty, and “Cucamelon” are cute little melons that can be eaten raw or pickled.

PEPPERS - Hot is in! “Tobasco”, “Ghost” and “Anaheim” are all hot to superhot!

TOMATOS - “Tomaccio” is a sweet cherry type that is best for sun-dried raisin tomatos. “Dancing with Smurfs” a new black cherry tomato. The newest innovation in tomatos for 2017 is the “Take 2 Combo Pot”. It comes with two compact varieties – one cherry and one beefsteak type – together in a 12” (30cm) planter pot – a great space saver!

BEETS - “Bull’s Blood” – dark burgundy leaves make a great color splash in any full-sun planter.

EGG PLANT - “Patio Baby”- compact grower - great for the patio....and there are so many more to add color, flavour and goodness to your planters, gardens, and gourmet pallette! Some are in limited amounts-drop in early and don't miss 'em!

BUG-OFF-BOWLS - another great new idea - an attractive combination of lemon scented herbs and geraniums in a decorative bowl. Set them next to your favourite seating area in the garden to ward off those pesky mosquitos and wasps!

1. KALE - PRIZM

2. CUCUMBER - PATIO SNACKERS

3. CUCUMBER - CUCAMELON

4. CUCUMBER - LEMON

5. PEPPERS - ANAHEIM

6. TOMATOS - TOMACCIO

7. TOMATOS - DANCING WITH SMURFS

8. BEET - BULL'S BLOOD

9. EGG PLANT - PATIO BABY

Raspberries

Consuming raspberries has been proven to have many health benefits, this year choose your favorite raspberry for your family to grow. It is one of easiest fruit bushes to grow and the most prolific fruits to grow in the garden. Raspberries have a long history. There is evidence that Paleolithic Cave Dwellers ate them as part of their diet, even though the canes were not cultivated until the 4th Century A.D.

In Greek stories the berries where white and the nursemaid of Zeus, Ida pricked her finger and the berries turned red. *Rubus idaeus* means bramble bush of Ida in latin which was named for the nursemaid and the mountain where they grew. In the middle ages the juice was used as a red stain in art work and dies for clothing.

The best location for Raspberries is a loam soil with high organic matter. The location should have good air circulation to prevent disease. An 8m row will produce enough for a family of four. Plant your raspberries in early spring for a great crop the next year. The key to success with raspberries is to:

- ✓ Avoid high nitrogen
- ✓ Trim and thin canes in late fall or early spring
- ✓ Harvest in cool of morning or evening, avoid afternoon heat
- ✓ Fertilize in early spring with balanced fruit & shrub fertilizer
- ✓ Water well in the fall to prevent drying out in winter/spring

Florican Raspberries have new shoots or suckers that are sent up every year. In the first year, the suckers complete their growth and the next year produce fruit. The cane after producing fruit dies and the process repeats. That is why you only prune second year growth each year which are dead branches. Florican varieties produce in the early to mid summer.

BOYNE - Large sweet, red fruit produced on same year wood. Great for eating fresh, freezing or preserves.

AUBIN BLACK - Hardy vigorous grower producing good quality, black fruit for preserves or eating fresh.

MUNGER - Large, shiny berries and is excellent for eating fresh, or for use in jams, jellies, and preserves.

WYOMING - A non-suckering, black raspberry with a pleasing flavour. Harvest in mid summer.

Primocane Raspberries produce fruit on the current seasons growth and production begins in late August. Areas with long falls are ideal for primocane varieties. All canes can be trimmed back in fall, thus eliminating winter survival problems.

DOUBLE DELIGHT - Large, red berries having a sharp delightful flavor

FALL GOLD - Two crops per year, summer/fall. Fruit is large, yellow with very sweet flavor and very juicy.

RED RIVER - Red, sweet fruit harvested on same year wood. Heavy producer. Harvest in late summer.

HERITAGE - Red, very good producer and is tart to taste.

AMITY - Raspberries are ever-bearing with medium to large dark red berries that are very firm.

Harvest raspberries when the berries are easily removed from the bush. They should have good color and still be a bit firm. To keep the harvest going pick your berries three or four times a week. After you remove the berries it is advisable to cool them fast or they may breakdown in the container.

Double Delight

Boyne

SMOOTHIE

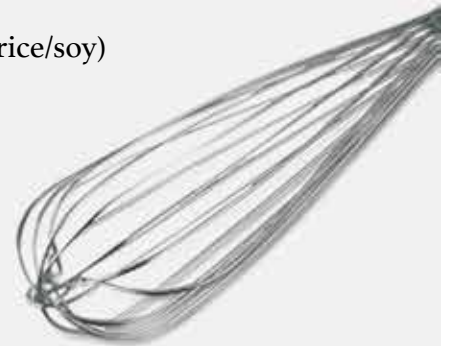

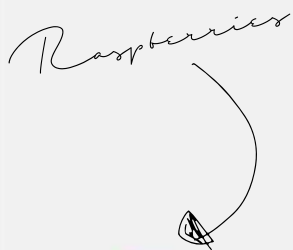

by Francois - Raw Chef

While we are waiting for the fruit season to start, why not enjoy a blast of summer. Nowadays it is easy to find Organic frozen fruits which often times are fresher and less expensive than the out of season "fresh ones".

In this recipe, if you are using frozen fruits, omit the ice cube and replace with 1/4 cup of filtered water or as little or much as needed to obtain the desired consistency. Be mindful that the chia seeds will absorb a lot of the liquids in this recipe. Your smoothie will get thicker in the first 10 minutes as the marvel seeds absorb liquids up to 9x their volume.

This smoothie is a complete meal in itself. Aside from the bounty of vitamins, minerals and fibers, berries abound in anti-oxidants. The Chia seeds will add a complete protein, the essential omega 3 and more fibers. Enjoy guilt free!

- ✓ 1 1/2 cup of peaches
- ✓ 1 1/2 cup of raspberries
- ✓ 1 cup of kale and/or spinach
- ✓ 1 cup of non dairy milk (almond/cashew/brazil nut/rice/soy)
- ✓ 2 TBSP of chia seeds
- ✓ 1/4 TBSP vanilla extract
- ✓ 1 TBSP maple syrup
- ✓ 2 ice cubes

CANADA 150 

SPECIAL BIRTHDAY PACKETS

by Michel Touchette and Pete Van Vilet

The Canadian Shield Rose was released by the Vineland Research and Innovation Center specifically to coincide with Canada's 150th birthday. This rose, bred by Larry Dyck from Morden Research Station, is hardy in zone 3 and has shown excellent leaf disease resistance at Morden and Vineland for the last 5 years. Canadian Shield offers large red flowers each with over 40 petals. This shrub rose matures at a height of 1.25m and spread of 1m on the prairies and may grow possibly larger in warmer climates.

This year, let's show our patriotism and love for our country by featuring our Canadian colours in the prairie garden. Together, a red **Canadian Shield Rose** accompanied with a white **Oscar Peterson Rose** symbolize our nation's flag colours. Surround the red and white with the multicoloured blooms of **Campfire Rose** to celebrate Canada's rich diversity.

- ✓ Winter hardiness to Zone 3
- ✓ A mature size of 4-5' high x 3-4' wide
- ✓ Lush green leaves resistant to powdery mildew and black spot
- ✓ Large, multi-petal red flowers produced through the summer and fall

The Little Farm in the Heart of Red Deer

Sunnybrook Farm Museum

Sunnybrook Farm Museum celebrates the early days of Alberta farming. Find your rural roots as you explore Red Deer's oldest farm. Imagine the lives of pioneer farm families working in the field, milking the family cow in the dairy barn, repairing a plow in the blacksmith shop, or baking bread in the summer kitchen. Enjoy a self-guided interpretive tour of our 10-acre site just North of Bower Mall.

4701 - 30 Street, Red Deer

Open daily 9am-5pm and weekends in summer

Admission by donation
