## Home Delivery Service

We realize that some of our customers may not have the ability to transport their statuary, trees or furniture to their home. We can recommend a delivery service for your convenience. There is a fee for delivery and prior arrangements need to be made. Delivery service does not apply to bulk products. Please contact our information centre for all your delivery inquiries.

### “Our Guarantee”

All of our plants are guaranteed to be true to name, top quality, healthy and free of insects or disease. If you should have any problems or concerns please contact us.

Trees and shrubs are guaranteed for one (1) year from date of purchase and for the original purchase value.

Our guarantee applies to trees or shrubs that fail to grow after being properly planted and cared for in a recommended area. Guarantee excludes damage done by animals, chemicals, vandalism or nursery stock planted in above ground containers.

The original receipt and nursery stock must be presented prior to or at time of adjustment. For more information on returns of plant material, please call us at

**403.346.5613**

We are also offering a 5 year warranty on trees and shrubs with purchase of MYKE.

**GET**  
5-YEAR  
WARRANTY  
on your tree or shrub

## Haskap or Honeyberries

by Christine

It has been proven that there are several health benefits for those who consume this berry. Haskap berries are high in vitamin C and a great source of antioxidants. They need a pollinator to complete fruit production. You need one pollinator for 5 plants and they need to be close to one another. Appropriate pollinator varieties are required. This chart will make your decisions easier. All are available at Parkland Garden Center.

<b>Tundra</b>	-bush size 4'x4' tall and wide -Tundra is a firm berry and does not bleed from the stem when picked	Polinates, Aurora/Honeybee/ Berryblue/ Bluebelle/Cinderella
<b>Borealis and it's new Partner Svetlana New for 2016</b>	-bush size is 4'x4' tall and wide -not as firm as Tundra	Polinates, Aurora/Honeybee/ Berryblue/ Bluebelle/Cinderella
<b>Indigo Series</b>	-bush size is 4'x4' tall and wide -Indigo's are the smallest berries of the series	Polinates, Aurora/Honeybee/ Berryblue/ Bluebelle/Cinderella
<b>Honeybee and it's new Partner OPAL New for 2016</b>	-bush size is 6'x5' tall and wide -the fruit is very cylindrical in shape and ripens the latest	Polintes, Tundra/Boreallis/Indigo Series/Aurora/Honeybee/ Berryblue/ Bluebelle/Cinderella
<b>Cinderella</b>	-bush size is 3'x3' tall and wide -they are tubular in shape and the newest introduction 2014.	Polintes, Tundra/Boreallis/Indigo Series/Aurora/Honeybee/ Berryblue/ Bluebelle/
<b>Bluebelle, Berryblue</b>	-bush size is 5'x5' tall and wide -they produce an abundance of fruit and are one of the highest producers	Polintes, Tundra/Boreallis/Indigo Series

### Haskap Berry Growing Tips

Haskap grow best in well drained soil which is higher in high organic matter. They need lots of sunlight for optimum productivity. More than one cultivar is needed for good fruit production. These berries will look ripe 1-2 weeks before they are truly ready to be eaten. If the berries are green inside, they are not ripe; they should be a deep purple red inside when fully ripened.

# 2016 Calendar of Courses

## BBQ Delight - Cooking with Herbs

Surprise your family and friends with your new BBQ skills using fresh garden herbs. Bring along a friend for a fun time of tasting and testing with the chef from La Casa Pergola. Each participant will receive a free BBQ apron as well as recipes to take home. A great gift idea for the man in your life!

Cost: \$40.00 plus GST

Saturday June 18, 11:00am-1:00pm

# The Symbol of Beauty and Love

by Christine

The Greeks and Romans linked the lily with the queen of the gods of women and marriage, called Hera by the Greeks and Juno by the Romans. The lily was also one of the symbols of the Roman goddess Venus who is the goddess of beauty and love. Venus was jealous of the beauty of the lily and put pistils in the center of the flower so the lily would not be as beautiful as she.

Tiny Poems Lily the **NEW** 2016 Growing Colors Introduction is pictured here.

This must-have compact variety produces black centered blooms in a trumpet shaped flower with hot pink tips. The flowers are excellent for cutting in early summer and make an excellent mass border planting. They are about 14" tall and the spread is 12" and they produce 5 to 7 flowers per stem which makes them excellent for cut flowers. They require a well drained sunny location for optimal growth. These lilies are known to attract hummingbirds and are very fragrant.

*Tiny Poems is a beautiful lily that is fragrant. Blooms late summer, likes full sun and average soil at 25-30cm tall and wide. It will not require staking.*

# “Foodie” Fun in 2016

by Alfred

In recent years we have experienced a shift to edible gardening as opposed to ornamental gardening. We feel there are ways to combine the best of both worlds.

Foodies looking for fresh edibles can now grow their own even if they have only limited space in which to do so. New to our line-up this year are the following—all great for patio pot production.

Pepper: “Thunderbolt”  
Unique new 32cm long (13 inches)  
banana type sweet pepper

And for those who want the biggest tomato try “Porterhouse”, producing giant 2lb-4lb fruits

## 2016: YEAR OF THE RAINBOW CARROT

Carrots now come in many colors, which hold their color when cooked, so they look great on the plate as well as being tasty and nutritious. They are best seeded direct in your garden or raised bed. They require full sun, deep soil and seeds should be covered only ½ cm deep for good germination. Keep soil moist until they are all up, for good success. They are best seeded in late April to late May and may be reseeded regularly until mid July. Drop in and see our seed selection!

# THE LOWLY LOVELY SPUD

by Alfred Prins

## “Grow your own & save \$”

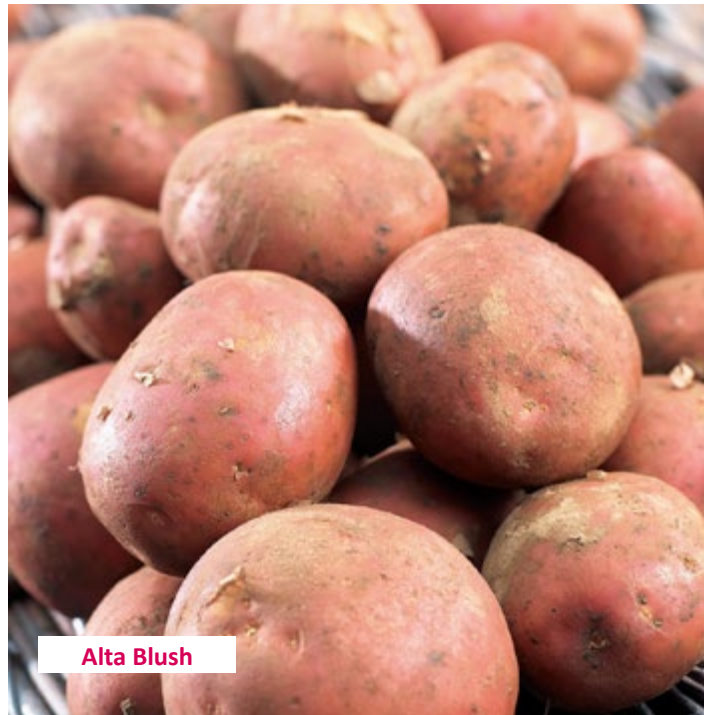

Potatoes have been grown for centuries and are still one of the most common vegetables grown today. A member of the same plant family as: tomatoes, peppers, eggplant, tobacco, datura, petunias, goji berries and more, potato tubers contain all the nutrients required in a healthy diet. They can be grown in any sunny garden with a well drained loam of average nutrient value. They grow equally well in raised beds, large pots or in our potato bags. They do not like shady spots, hot dry locations or heavy, soggy soil.

“Netted Gems” (now known as “Russett Burbank”), “Norland”, and Warba were the only varieties available in days gone by but now there are so many better and more exciting varieties to grow. At Parkland Nurseries & Garden Centre we will have over 30 varieties to choose from. They come with russet, red, white, yellow or purple skins and inside they range from white through buttery yellow to red and blue.

Recently introduced is Alta Blush, developed right in Central Alberta. It has pink skin and creamy flesh. Heavy yields are harvested in mid to late summer. We have several new gourmet varieties of “spuds” to treat the palate of potato “aficionados” this summer.

Potatoes can be planted as early as mid April but are best planted in early to mid May. Early maturing potatoes such as Warba, planted in mid April, can sometimes yield “new” potatoes by late June, while potatoes planted as late as early to mid July can yield the same tasty treats in mid September.

Our potatoes at Parkland Nurseries & Garden Centre arrive in early April. Come in and check them out!

# Story Behind the *Rose*

David Austin's English Roses are not like other roses. These roses quickly form magnificent shrubs, with the proper care which make great impact in the garden. They are reliable and easy to grow, with a vigor which contrasts with the delicate charm and beauty of their many petalled, scented blooms.

## **Magnificent Garden Shrubs**

- English roses form shapely shrubs with bushy growth and stunning multi-petalled blooms.
- Unlike old roses, the English Roses are available in many different colours.

## **Wonderfully Fragrant**

- Renowned for their strong and diverse fragrances.
- Fragrances include old rose, tea, myrrh, fruity and musk.

## **Repeat-Flowering**

- Provide blooms over a long season.

## **Beautiful Fragrant Climbers**

- English Roses are some of the best climbing plants, flowering down to the base.
- Train against pillars, obelisks, walls, arches, pergolas, trellises and post and rail fences.

## **Highly Versatile**

- Ideal for mixed flower beds, traditional rose borders, fragrant hedges, large pots and containers, for cutting or landscaping.
- Perform well in partial shade.
- Grow well in a wide variety of climates.

## **Health**

- Bred for vigor and superb garden performance with outstanding disease resistance.
- Tested under rigorous conditions for eight years.
- With a little extra care & protection, these roses will do well in our area.

## **Fragrance Types**

English Roses can be grouped into five fragrance types, although there is much interplay between them.

- **Myrrh** has aromatic, licorice warmth of sweet anise. Amongst roses, it is now almost exclusively confined to the English Roses, although it can be found in other plants, such as Lilac and Hawthorn.  
**Best: *Strawberry Hill*.**
- **Fruity** – the rose is related to many fruits, including apples, pears, raspberries and apricots.  
**Best: *'Lady of Shalot'*.**
- **Musk** – Even a small amount of the romantic musk rose scent will perfume the air. The source of the scent is frequently the stamens.  
**Best: *'Wedgewood'*.**
- **Old Rose** – David Austin's favorite rose fragrance is the classic old rose, which he believes is the most alluring of all the rose fragrances.  
**Best: *'Gertrude Jekyll'*.**
- **Tea Rose** – often compared to opening a packet of fresh China Tea – most frequently appears in the yellows and apricots.  
**Best: *'Heathcliff'*.**

Gertrude Jekyll

## Prairie Skyrise is a “NEW” alternative for the Swedish Columnar Aspen.

It is a fast growing, upright columnar form with very compact branching habit and deep green foliage; leaves out earlier than Swedish Aspen. Golden yellow fall colour and is excellent to use for screens and windbreaks. Perfect for small yards. Best in moist, well-drained soil.

If you would like more information on these plants you can check out our “Plant Finder Tool” on our home page at [parklandgarden.ca](http://parklandgarden.ca) for any further inquiries, come talk to our specialists.

# Sea Buckthorn

Sea buckthorn - has attractive grayish green foliage which emerges silver in spring. It features an abundance of orange berries from fall right through the winter, which are excellent for making jams and jellies. The plant grows in most conditions and gets up to 20 feet tall by 20 feet wide and can be trained into a multi-stemmed tree. It is drought tolerant and extremely hardy!

## Did you know?

by Francois Michaud

- Sea buckthorn is one of the few natural sources of the rare Omega-7 fatty acid, which has been found to aid weight loss, help prevent type 2 diabetes and improve the look and feel of skin
- It's impact on skin health has led it to be used as an effective treatment for burns and dermatitis, as well the anti-aging power will transform your skin (Parkland Garden Centre carries "Bee By the Sea" Sea buckthorn face and body creams).
- Contains over 190 different nutrients, including the full spectrum of vitamins
- Enhances immunity, lowers cholesterol and boosts heart and vascular health

## Sea Buckthorn Smoothie

They mix well with any berry smoothie recipe but I like its unique taste so instead of losing it's flavor, I opted here to enhance it instead:

1 inch ginger

1 tablespoon maple syrup (Parkland Garden Centre carries Francois maple syrup)

1 banana

1 cup coconut water

½ cup of frozen sea buckthorn

1 tsp of ground Chia seed (optional but will add thickness and good omega 6 on top of the rare omega7 from the seabuckthorn)

Mix in a blender and enjoy!

7. Happy Magic Blue Edge

## What's New in Annuals for 2016

by Alfred

There are so many exciting new varieties in the greenhouse this year that it is hard to know where to start. We have at least 40 new and different items coming in this spring. They are grown right on our own premises, from rooted cuttings and available in starter pots or in larger hanging baskets and planters – ready for the patio!! Here are some highlights:

1. Calibrachoa: "Superbells Holy Moly" – Gold & magenta bicolor combination
2. Calibrachoa: "Superbells Evening Star" – Blue with yellow star centre
3. Bidens: "Campfire Fireburst" – Shades of dark to gold, orange medium spreading
4. Gerbera: (Landscape) – Hello! Magentamen – More durable version of the popular bright colored daisy
5. Lobularia: "Raspberry Stream" – New rose pink to go with white and purple we already have
6. Begonia: "Unstoppable Upright Fire" – Orange blooms, semi-upright; black foliage
7. Petunia: "Happy Magic Blue Edge" - Semi-trailing/mid-blue with lime green edge

3. Campfire Fireburst

5. Raspberry Stream

6. Unstoppable Upright Fire

## New in Annuals

9. Presto Dark Red

8. Geranium: "Pillar Scarlet" – A new very vigorous plant with red blooms; growing up to 120cm (4ft) tall!

9. Geranium: "Presto Dark Red" – New compact type with more double flowers

10. First Yellow

10. "First Yellow" – First actual yellow flowered geranium!

11. Coleus: "Campfire" – Large plants with eye-catching orange foliage, for shade

11. Campfire

There is SO much more – be sure to drop in and check all the amazing varieties out! These will all be here in late April and May while supplies last.

8. Pillar Scarlet

## Additional New Beauties

by Alfred Prins

For those wanting to stay at home this summer and enjoy their gardens rather than travelling on costly vacations, we have some exciting new flowering cultivars to provide some easy and economic excitement in your gardens.

We have all the usual reliable favorites plus a few new performers, the predominant color being a sunny yellow.

The common border plant, Sweet Alyssum, is now available in "Easter Bonnet Lemonade" yellow and the popular vigorous Cosmos is also now available in soft yellow called "Xanthos". But the most exciting new "goodie" out this spring is a Wave Petunia. A beautiful soft yellow is now available in "Easy Wave Yellow".

In addition to all these yellows, Cool Wave Pansies is now available in a "Blue Skies" color for cold tolerant trailing hanging baskets.

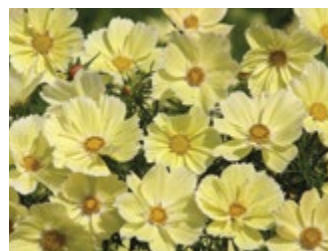

Come on in and check out our additions of "Sunshine and Blue Skies" to our bedding plant selection –what more could we want this summer! We are also trialing a new more compact seed Geranium called "Nano Scarlet" they should be great in patio pots in full sun!

Easter Bonnet Lemonade

Blue Skies

Xanthos

Nano Scarlet

# What's New In Garden Seeds

by Alfred

At Parkland Garden Centre we take pride in carrying the most complete selection of garden seeds suitable for growing in our area, available in Central Alberta. While we retain the tried and reliable favorite varieties carried by many companies, we recognize the increasing demand for the heritage, heirloom and non-GMO varieties. To that end we will again carry a wide selection of choices for our customers.

This year, however we are delighted to be the exclusive outlet in Central Alberta for a new line of non-hybrid, non-GMO seeds grown right here in Alberta! This new company produces over 160 varieties of easy to grow Vegetables & Flower Seeds and we are proud to have them at Parkland Garden Centre!

We carry a good selection of seed tapes and we also have a full selection of pelletized seed, called "Sow Easy", for seeding made easy!

If you're looking for your old favourite stand bys, or for something "NEW" we have them all – drop in and check them out.

## Annual Chart

Name	Size	Color	Exposure	Details
Ageratum	15cmx15cm	Blue /White/ Pink	Sun	Good border plant
